- CHETAN → (2020046)
- ARYAN JOSHI → (2020036)

IMPLEMENTATION

- The game is developed using Java and JavaFX along with Scene Builder.
- The main menu handles operations to play game, see high score page, and choose between king or queen page.
- The gameplay area contains the obstacles of floating islands, orcs.
- In the game our heroes motive is to collect coins.
- The hero loses the game if he falls in no land area or touch the bottom part of orc.
- Game contains the feature of save, load or restart.
